Toddler tantrums... to teen driving

Potty training... to their posts on Facebook

Refusing to eat peas....to refusing to do anything

Step-parenting, special needs and much, much more!

The "Love" in Love and Logic means that we love our kids so much that we are willing to set and enforce limits. This "Love" also means that we do so with sincere compassion and empathy.

The "Logic" in Love and Logic happens when we allow children to make decisions, make affordable mistakes and experience the natural or logical consequences. When we balance this with sincere empathy, they develop the following logic:

***The quality of my life depends on the  
quality of my choices.***
